A Selection and Shortlist!

Book Power
By George Attieh

Reading a book relaxes your mind,
It takes you to places hard to find.
It develops your imagination,
Teaching you about God's creation.
Reading a book develops your skills,
For you will have everlasting thrills!
You can find books everywhere,
Go search in the book fair!

The Art of Reading
By Daniel Barakat

You can travel the world in a day or more
And come back for an encore!
Reading develops the imagination
And helps you all the way till graduation.
It helps you with your dedication,
Reading will boost your education.
It will give you the sensation
That you're lord of all creation.
Reading will ease your agitation,
It will also stop your hesitation.

Reading
Joseph Ram Abou Zeid

Many books I have read
While sleeping in my bed.
Reading is good for your health,
But does not bring you any wealth.

Reading is filled with many joys,
It is for both girls and boys.
If you enjoyed your first book,
Grab another – and take a look!

Reading

By Joy Abi Yazbek

Read in the morning,
Read in the dark,
Read in the playground,
Read in the library,
Read when it's raining,
Read when you're eating,
Read in your books,
Read everywhere you go,
Read and night,
Read in the light,
Read on the grass,
Read in class,
Read when it's sunny,
Barrels of honey,
Read in your mind,
To all mankind!
Reading is fun, reading is great,
Let's read together: I cannot wait!

Reading Can Help

By Zoyi Shaar

Reading helps you get better,
At writing a letter
You can read at school,
At home, at a pool
Reading may help you think
And may make you blink
Reading has a kind of imagination

That might help you in dictation
Just read a word and you will see
That I am right and you will be
A chef that cooks
Or a person who reads books.

Reading
By Alexy Serayderian

Reading is so much fun
It is easy to be done
Grab any book even if it to cook
Read them when you're on the pool
And be cool
It makes you smarter
Without getting larger
I love reading and that's true
I finished my poem and I'll share it with you!

Amazing Books
By Grace

Books can be big or small
One can even find them in the mall
Reading books makes one smart
For one will learn about music and art
Reading books has no age limit
It can take you anywhere in a minute
Books keep your brain healthy
No matter if you're poor or wealthy.

Reading
By Yasmina Abdo

I like reading
It's entertaining
If you don't mind

I'm going to teach my mind
A lot of things to learn in just one line.

The Book
By Kate Challita

The book is our friend
Every story teaches a different lesson
We feel so amused
Others make us visit heaven
And stories in the end
Make us happy like eating muffin.

As Soon as My Homework is Done
By Anthony Naumets

As soon as my homework is done
I run at once to you!
Go to bed! I hear from my mom
Mommy, just 10 lines! I promise you!
My book, to you I stretch my arms!
Unfading light you are my book!

Reading
By Anthony Kaldawi

Reading is delightful
It is all so beautiful
It is good for your brain
And then you don't have to train
You will know everything
Then you won't ask anything.
